

EXOCET ACCESSORIES

A complete range to optimize and boost your Exocet systems

EXOCET VOICE

An innovative audio system incorporating artificial intelligence that transforms audible alarms into clear, explicit voice messages, making on-board alerts more responsive and easier to understand. The latest Exocet accessory, this box will be compatible in 2025 with Exocet Safety, Exocet Exos and Exocet Blue. Compatibility with Exocet Essential and Silver is scheduled for 2026.

1,100 € Excl. VAT

EXOCET BUZZER

The Exocet Buzzer box is an audible and illuminated warning device designed to enhance on-board vigilance. Controlled by the Exocet via a GPIO output, it provides effective warning and can be configured to meet the specific needs of the crew.

232 € Excl. VAT

EXOCONNECT ANALOG / IO

The ExoConnect Analog/IO box simplifies the connection of external equipment to Exocet systems. More flexible and secure than a simple extension cable, it facilitates the integration of analogue signals and inputs/outputs for optimised connectivity.

499 € Excl. VAT

EXOCONNECT SERIAL

The ExoConnect Serial box facilitates the acquisition and transmission of serial data within the Exocet ecosystem. More powerful than a simple extension cable, it offers reliable connectivity, simplified installation and enhanced security.

499 € Excl. VAT

EXOCET BRACKET

Robust bracket designed for secure integration of Exocet enclosures. It provides optimum support and is easy to remove without dismantling or unscrewing.

EXOCET ACCESSORIES

A complete range to optimize and boost your Exocet systems

EXOCABLE ETHERNET / CAN

Hybrid cabling for fast, stable data transmission between devices. Ethernet connection cable (1m) to CAN (0.6m).

281 € Excl. VAT

EXOCET ESSENTIAL KEYBOARD

6-key keyboard designed for precise control of the Exocet Essential control overlays, offering an intuitive, responsive interface.

320 € Excl. VAT

EXOCET SAFETY KEYBOARD

12-key safety keypad designed for advanced control of the Exocet Safety. It reflects the system's essential commands and status, with nine buttons dedicated to the product's functions and three specific keys for acknowledging alerts, triggering sail release and resetting the autopilot.

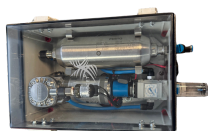

550 € Excl. VAT

EXOCET RELEASE CLEAT

An essential component of the sail release system, this release cleat ensures fast and safe release of manoeuvres thanks to precise pneumatic control.

450 € Excl. VAT

EXOCET COMPRESSOR BOX

Compact unit essential for managing air compression in Exocet systems. Essential to the sail release mechanism, it produces, purifies and stores the compressed air required for the smooth operation of pneumatic equipment.

1,115 € Excl. VAT
